

NEW ROWING ERGOMETERS FOR SALE AT A DISCOUNTED PRICE

Brand new Concept 2 Rowing Ergometers will be for sale by the St. Louis Rowing Club at a discounted price including no charge for shipping. These ergometers will be available for pick up by the buyer on Saturday February 4, 2012 at the Washington University Athletic Complex in the Francis Gymnasium. These ergometers will be new, although some will have been used that day only in our annual ergometer race. The savings will be significant and is as follows:

Model D ergometer with PM3 \$815 (usual price \$900 plus shipping*)

Model D ergometer with PM4 \$900 (usual price \$1050 plus shipping*)

***Shipping is anywhere from \$40-\$90.**

Again, the charge for these rowing machines is as listed and there are no shipping charges. The PM3 and PM4 are the monitors that come with the ergometer. The PM4 has more options hence the higher cost. The two types of monitors are compared at the following site:

http://www.concept2.com/us/indoorrowers/monitors/pm3_pm4_compare.asp

Additional information about the indoor rowers is available at:
